THE PLATE COLLECTION

Il progetto “Collezione Plate” rappresenta un’assoluta novità, un ***unicum*** innovativo di materia, tecnologia e design Made in Italy che mette a disposizione di architetti e designer una serie di pulsantiere inedite e personalizzabili, dove la tecnologia più evoluta si fonde perfettamente con il design per rendere unico il controllo della luce nel mondo della nautica.

Le diverse linee marinizzate, sono state concepite con materiali e forme diverse per soddisfare le più esigenti richieste stilistiche di cantieri e designer.

Tramite queste pulsantiere, che grazie alla possibilità di personalizzazione dei tasti diventano un importante elemento di arredo, si possono attivare, in maniera semplice e intuitiva, le funzioni più avanzate per controllare luci e movimentazioni a bordo.

MANIFESTO

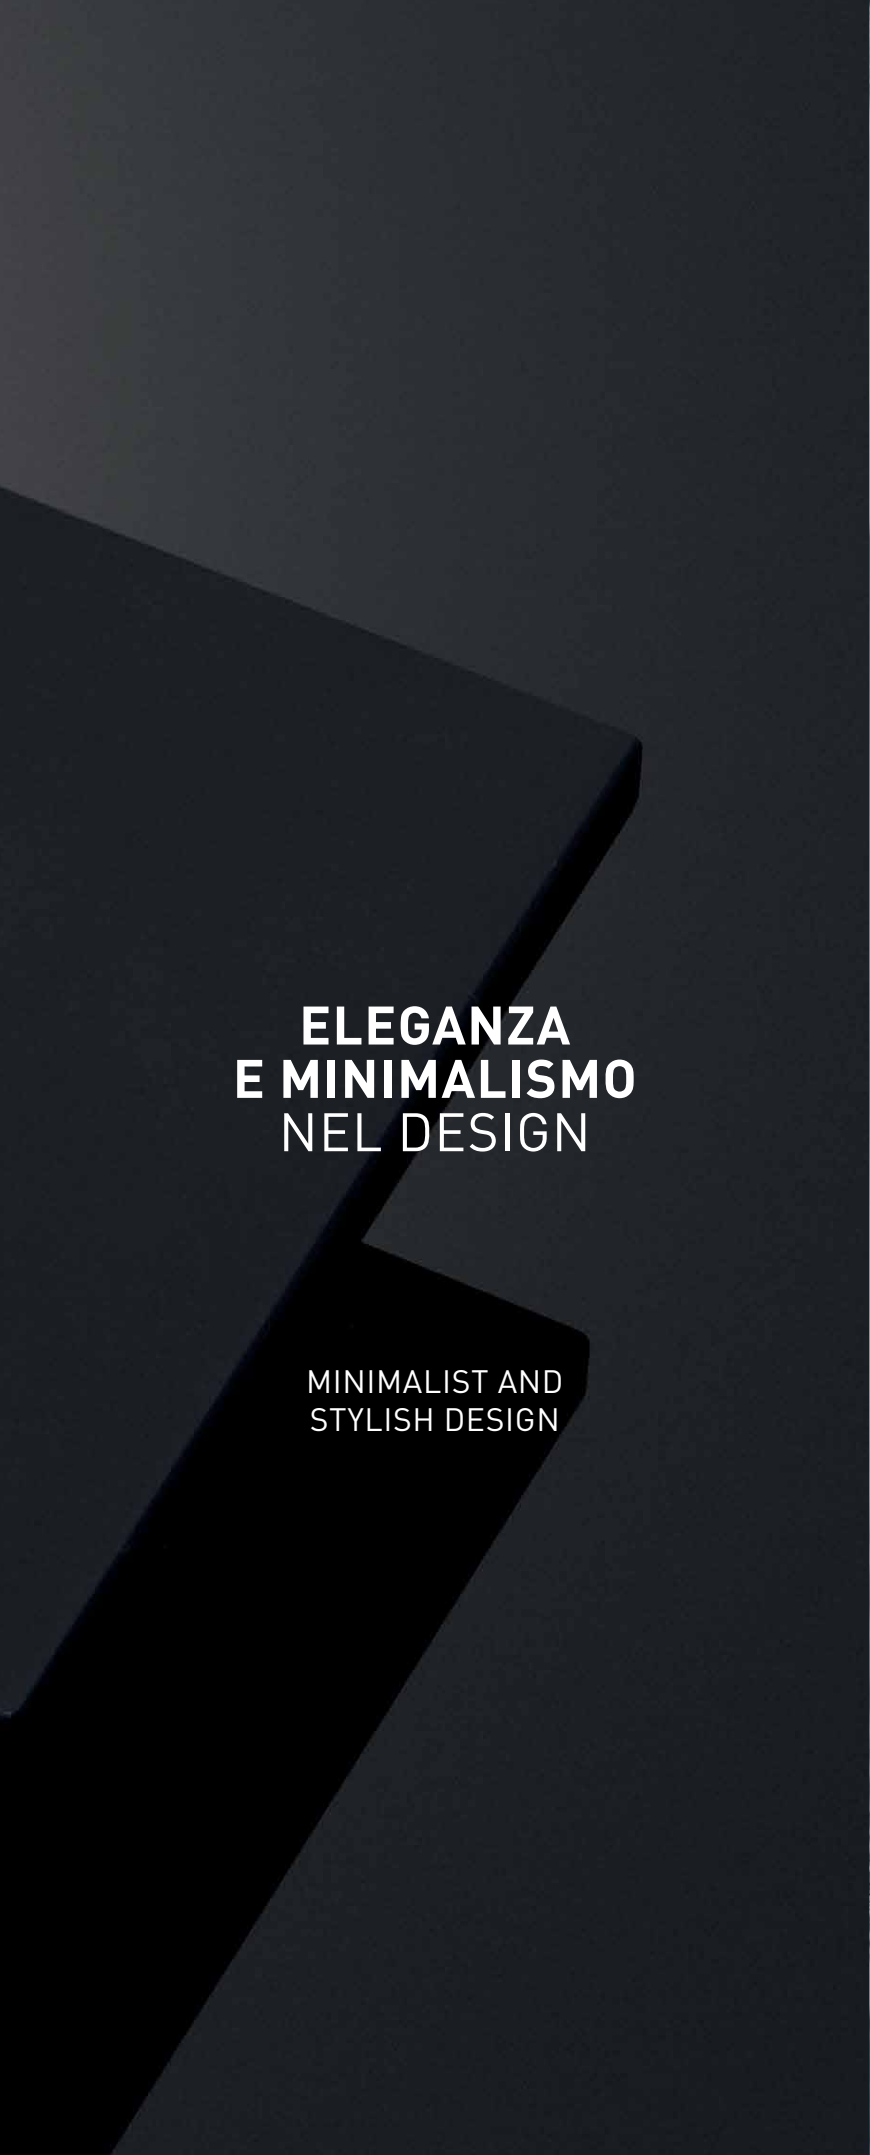

*The “Plate Collection” project represents an absolute novelty, an innovative **unicum** of material, technology and design Made in Italy. That makes available to architects and designers a series of original and customizable marine wall plates. The most advanced technology blends perfectly with the design to make light control unique in the yachting market.*

The different lines have been designed with different materials and shapes to meet the most demanding stylistic requirements of shipyards and designers.

Thanks to the possibility of customizing the keys become an important element of furniture. Through them you can activate, in a simple and intuitive way advanced functions to control lights and movements on board.
